PROFESSIONAL SUMMARY

Results-driven Senior Business Analyst with 5+ years of experience in Agile/Scrum environments, specializing in requirements engineering, stakeholder management, and cross-functional delivery. Proven track record of managing end-to-end BA lifecycle — from elicitation and documentation to UAT, release management, and roadmap planning. Skilled in Azure DevOps, JIRA, Confluence, Figma, and AI-assisted productivity tools.

CORE COMPETENCIES & TOOLS

BA Core Skills: Requirements Elicitation | User Stories | BRD / FRD | RTM | Gap Analysis | Process Mapping
Agile & Delivery: Agile / Scrum | Sprint Planning | Backlog Grooming | UAT Management | Release Management
Tools & Platforms: Azure DevOps | JIRA | Confluence | Figma | Balsamiq | Lucidchart | Draw.io | MS Visio | SQL
AI & Productivity: ChatGPT | Microsoft Copilot | Claude (Anthropic) | AI-assisted Documentation | Effective Prompting
Documentation: DFDs | Wireframing | Prototyping | SOP Development | Test Case Review
Soft Skills: Stakeholder Management | Cross-functional Collaboration | Problem Solving | Analytical Thinking

WORK EXPERIENCE

Senior Business Analyst

Jun 2025 – Present

Deloitte (via Team Lease Digital Pvt. Ltd.) • IT Product / Services

- Ramped up on a complex enterprise product within 1–2 weeks, contributing to live sprints from day one.
- Own end-to-end requirements lifecycle — stakeholder workshops, user stories, BRDs, FRDs, and acceptance criteria across multiple workstreams.
- Manage a well-prioritized backlog on Azure DevOps — grooming, monitoring ageing, and ensuring sprint-ready stories across all active workstreams at all times.
- Drive 90–95% on-time sprint delivery through Agile ceremonies, early blocker identification, and cross-team alignment.
- Lead UAT from the business side — test scope, defect triage, and business sign-off; manage releases and post-production support.
- Run Figma design reviews, support integration discussions, and maintain product roadmaps aligned to business priorities.
- Actively leverage AI tools — ChatGPT, Copilot, and Claude — applying effective prompting techniques to significantly reduce time spent on documentation, user story drafting, and meeting summarisation; freeing up more bandwidth for high-value analysis, stakeholder engagement, and decision-making.

Business Analyst

Sep 2024 – Mar 2025

Tradu

- Collaborated with cross-functional teams and stakeholders to define, document, and validate requirements — improving operational efficiency by 30% and boosting product adoption rates.
- Acted as primary liaison between business stakeholders and technical teams — facilitating requirement walkthroughs, securing approvals on designs, and driving alignment across project milestones.
- Developed low-fidelity wireframes and interactive prototypes using Figma and Balsamiq; conducted iterative feedback sessions with stakeholders to refine designs against user and business goals.
- Applied Agile practices to drive iterative development cycles; facilitated sprint ceremonies, contributed to backlog grooming, and ensured timely delivery of business-aligned solutions.
- Led UAT planning and execution — created test scenarios, coordinated business testers, tracked defects, and provided post-go-live training and support to ensure smooth system adoption.

Business Analyst — Associate Process Leader

Nov 2022 – Sep 2024

Brane Enterprises Pvt. Ltd.

- Gathered and documented requirements through on-site visits, stakeholder interviews, and structured brainstorming sessions; produced detailed BRDs and FRDs ensuring full traceability to business objectives.
- Translated complex business requirements into wireframes, low-fidelity prototypes, and DFDs to support development, design, and QA teams in understanding scope and expected behaviour.
- Collaborated with project teams on effort estimation, sprint planning, and timeline management; facilitated Agile ceremonies including standups, sprint demos, and retrospectives.
- Contributed to test case design, validation rule definition, and UAT coordination — ensuring delivered solutions met quality standards and business expectations.
- Developed comprehensive end-user training materials and conducted knowledge transfer sessions; performed regular project reviews to track progress and maintain alignment with client goals.
- Delivered BA support across multiple customer-specific domains including fleet management, supply chain (store operations), workshop management, and healthcare applications.

Business Analyst (Catalog Specialist)

Jun 2020 – Nov 2022

Amazon Development Centre

- Supported the Seller Enforcement Stage 1 enhancement project — automated data consolidation workflows, reducing processing time by 60% and cutting data entry errors by 35%.
- Assisted in the integration of 6 new marketplaces into the platform — gathered and documented requirements, coordinated cross-functional stakeholders, and validated integration outcomes.
- Elicited and documented requirements for keyword highlighting functionality in queues; collaborated with design and development teams to ensure effective and accurate implementation.
- Analyzed existing operational processes to identify improvement opportunities; developed and optimized SOPs, training materials, and process documentation for clarity and efficiency.
- Served as Subject Matter Expert (SME) during the seller enforcement process implementation; led knowledge-sharing sessions and actively participated in UAT to validate business requirements.
- Compiled and presented detailed data-driven reports and insights to stakeholders, enabling informed business decisions and continuous process improvement.

EDUCATION

B.Tech — Electronics, Instrumentation & Control Engineering — CVR College of Engineering, Hyderabad 2015 – 2019 | CGPA: 8.5 / 10

Intermediate — MPC — Sri Chaitanya Junior Kalasala

2013 – 2015 | Score: 91.7%

10th Standard — SSC — Narayana Concept School

2013 | GPA: 9.8 / 10
